

Irakli Ugulava "The Tale of Two Lazare"

In the feudal age, many intrigues took place in the royal court to seize the power and wealth of the king. For this reason, the royal family was in a fatal danger to be executed. This is how Manuchar Eristavi treated king's family, but the prince escaped death. By chance the small prince escaped the murderers.

Was it the carelessness of the murderers or the fate, but the child survived. The sight of a little boy awakened compassion in Manuchar's faithful Lazarus, who renounced his master's loyalty, put morals above duty to his master, and delivered the prince to safety. He gave his name to the saved child and this is where the story of the two Lazarus began. Will little Lazarus learn the truth? Will he start fighting for the royal throne? The reader will see for himself.
